5:00-6:00pm	Total Body Low-Impact Cardio Karen 4:45-5:30pm		Low Impact Strength Jodi 5:15-6pm	Cardio & Core Erin 5-5:45pm	

Class Descriptions Below:

TRX (Total Resistance eXercise):

Total Body Resistance Training or suspension training builds a strong core, flexibility, strength and endurance. You will use only your body weight to help improve balance, strengthen muscles and joints in order to complete challenging exercises more effectively. You can take your performance to the next level or choose to modify movements for beginners or for members with limitations. *Maximum of 9 Participants – First Come, First Serve*

Forever Active:

Increase muscle strength and range of movement, and improve activities for daily living. You'll have a chair for seated exercises and standing support. Your instructor can modify the exercises for your fitness level.

Low Impact Strength:

Expect a workout that challenges all of your core muscles. Utilizing various pieces of equipment, and both floor and standing work, your core will be fired up and challenged.

Total Body Low Impact Cardio:

Expect a full-body workout using various equipment that promote foundational, compound, and isolation exercises for toning and aerobic fitness.

Cardio & Core:

This class is great for cardiorespiratory endurance, and core strength. A variety of cardio exercises will be offered, along with modifications, as well as both standing and floor work to challenge the entire core.
